

PASTOR'S NICKEL

Governance Ministry Team

Pastor's Nickel

Of all the ministry teams in our structure, the one that I have the least to do with is Governance. And yet it is also the one that has significant impact in everything we do. When Covenant changed our leadership structure in 2011 it sought to direct what we do according to the ministries of the church. But underneath all of that we needed a team that would thoughtfully review policies, ensure things are being done properly and in good order, coordinate nominations for Council and coordinate the recruitment of volunteers for the ministries of Covenant. It is a huge task. But it is one that has blessed us in ways that are often overlooked as they seek the blessing of effective and productive ministry. Even though it may not be one of the more visible ministries it is essential for how well Council leads and our ministries function. And it is a good reminder to me how sometimes some of the most important work is done by those who rarely get recognized and thanked. Thanks, Governance Ministry Team for all you do!

That's my nickel. Pastor Bob
