

PASTOR'S NICKEL

Pastoral Care Ministry Team

Pastor's Nickel

The overall work of the Outreach Ministry Team is probably what many of us expect in regard to connecting with our missionaries, in overseeing some of our ministry programs such as Friendship Ministry and in championing outreach events. One of the newer things that was added to their mandate was the development of missional communities. A

missional community based in a neighbourhood is a gathering of people who live intentionally with their neighbours and allowing their lives to be an open book, where they listen to their neighbours to understand them and to hear their joys and concerns and longings. And that means intentionally investing of ourselves into the lives of our neighbours. And the focus is, that as we live our lives with them, that our discipleship to

Christ becomes evident. It is a way that may be unfamiliar to many of us, but it is a direction that Outreach wants to lead us toward and a direction that will open doors for our witness. If that is something that interests you, then talk to an Outreach member about how you could get involved. It may be scary for you, but it will never be boring.

That's my nickel. Pastor Bob
